

WILL AND THE BRAIN NEUROSCIENTIFIC PHILOSOPHICAL AND LEGAL PERSPEC

Celestina stood listening until she heard Wally open the outer door and then close it..This was his door, however, not hers. She did not possess a ticket to ride the train that had come for him. He boarded, and the train was gone, and with it the light in his eyes. She lowered her mouth to his, kissing him one last time, and taste of his blood was not bitter, but sacred..If either of them suspected that she was lying, it was Edom. He looked puzzled, but he didn't pursue the issue..Besides, he wasn't on the Greenbaum Gallery customer list and didn't have an invitation.. "But the breed is nervous, dear. With a nervous breed, you just never know, do you?.Shuddering with dread, he placed one hand against the door and slowly pushed it open..And though Barty was not shy, neither was he a show-off. He didn't seek praise for his accomplishments, and in fact, they were little known outside of his immediate family. His satisfaction came entirely from learning, exploring, growing.. "We have reason to believe that the man who raped your sister is stalking you.".Whether or not the visitor in the client's chair had ever known much romance, he unquestionably had experienced too much adventure and more than his share of tragedy. Thomas Vanadium's face was a quake-rocked landscape: cracked by white scars like fault lines in a strata of granite; the planes of brow, cheeks, and jaws canted in odd relationships to one another. The hemangioma that surrounded his right eye and discolored his face had been with him since birth, but the awful damage to his bone structure was the work of man, not God.. "Many claimed Maharion's throne, but none could keep it, and the quarrels of the claimants divided all loyalties. No commonwealth was left and no justice, only the will of the wealthy. Men of noble houses, merchants, and pirates, any who could hire soldiers and wizards called himself a lord, claiming lands and cities as his property. The warlords made those they conquered slaves, and those they hired were in truth slaves, having only their masters to safeguard them from rival warlords seizing the lands, and sea-pirates raiding the ports, and bands and hordes of lawless, miserable men dispossessed of their living, driven by hunger to raid and rob.. "Slowly rotating his raised hands before his eyes, as if he saw them young and supple-fingered, the magician described the amazing manipulations that a master card mechanic could perform. Though he spoke without flash or filigree, he made these feats of skill sound more sorcerous than hares from hats, doves from scarves, and blondes bisected by buzz saws.. "To support my eyelids. And because without anything in the sockets, I look gross. People barf. Old ladies pass out. Little girls like you Pee their pants and run screaming.. "Once out of the coma and stabilized for a few weeks, I was transferred to a hospital in Portland, where I had to undergo eleven surgeries.. "In the name of Zedd, slow deep breaths. Focus not on the past, not on the present, but only on the future. What has happened is of no importance. All that matters is what will happen next..Junior was pleasantly surprised by his flexibility and by his audacity. He was, indeed, a new man, a daring adventurer, and by the day he grew more formidable..Her metal hands were still crossed defensively over her breasts. The artist had welded large hexagonal nuts to her rake-tine fingers to suggest knuckles, and balanced on one nut was a fourth quarter..Fifteen feet separated them, with guests intervening. Yet this stranger's attention could have felt no more disturbingly intense to Junior if they had been alone in the room and but a foot apart.. "But you don't understand.. "She recounted the extraordinary draw of aces during the fortune-telling session Friday evening..This morning, as Barty stood to one side listening, his mother asked Maria for poems by Emily Dickinson..Even as this news pleased Junior, it also saddened him. He was not merely interring a lovely wife, but also his first child. He was burying his family..As Barty ascended higher, Agnes's fear became purer, but at the same time, she was filled with a wonderful, irrational exhilaration. That this could be accomplished, that the darkness could be overcome, struck music from the harpstrings of the soul. From time to time, the boy paused, perhaps to rest or to mull over the three-dimensional map in his incredible mind, and every time that he started upward again, he put his hands in exactly the right place, whereupon Agnes would speak a silent inner yes! Her heart was with Barty high in the tree, her heart in his, as he had been with her, safe inside her womb, on the rainy twilight that she had ridden the spinning, tumbling car to widowhood..In January 1965, Magusson had sent Cain to Nolly as a client, not sure why the creep needed a private detective. That had turned out to be the business about Seraphim White's baby. Simon's warning to be careful of Enoch Cain had helped to shape Nolly's decision to withhold the information about the child's placement..Slow deep breaths. Per Zedd, slow deep breaths. Any state of anxiety, regardless of how powerful, could be ameliorated or even dissipated..Angel, busy with a cookie through most of this, licked crumbs from her lips and asked Paul, "Do you have a puppy?".Although he ate more meals in restaurants than not, he hadn't ordered a burger in twenty-two months, since finding the quarter embedded in the half-melted slice of cheddar, in December of '65. Indeed, since then, he'd never risked a sandwich of any kind in a restaurant, limiting his selections to foods that were served open on the plate..They were each down to one last sip of wine, studying dessert menus, when Celestina began to wonder if, in spite of all instincts and indications, she might be wrong about the state of Wally's heart. The signs seemed clear, and if his radiance wasn't love, then he must be dangerously radioactive-yet she might be wrong. She was a woman of some insight, quite sophisticated in many ways, with the raw-nerve perceptions of an artist; however, in matters of romance, she was an innocent, perhaps even more pitifully naive than she realized. As she perused the list of cakes and tarts and homemade ice creams, she allowed doubt to feed upon her, and as the thought grew that Wally might not love her that way, after all, she became desperate to know, to end the suspense, because if she didn't mean to him what he meant to her, then Daddy was just going to have to accept her conversion from Baptist to Catholic, because she and Angel would have to spend some serious heart-recovery time in a nunnery..Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?".Cupping Angel entirely in his

big hands, smiling at her, he said, "Oh, no, Mrs. White, this looks like a healthy young lady to me. No medicine required." Memory of the Spartan decor of Thomas Vanadium's house lingered with Junior, and he addressed his living space with the detective's style in mind. He installed a minimum of furniture, though all new and of higher quality than the junk in Vanadium's residence: sleek, modem, Danish-pecan wood and nappy oatmeal-colored upholstery. Ordinarily, a child of three would be too young to learn the use of a blind man's cane, but Barty wasn't ordinary. Initially, no cane was available for such a small child, so Barty began with a yardstick sawn off to twenty-six inches. By his last day, they had for him a custom cane, white with a black tip; the sight of it and all that it implied brought tears to Agnes just when she thought her heart had toughened for the task ahead. Although she was aware that these extraordinary events would shape the rest of her life, beginning with her actions in the hours immediately ahead of her, she could not clearly see what she ought to do next. At the core of her confusion was a conflict of mind and heart, reason and faith, but also a battle between desire and duty. Until she was. This morning, only his love for his sister, Agnes, gave him the courage to drive and to become the pie man. "I'll put you in a twilight sleep, you babbling cretin. Where'd you earn your medical degree, you nattering nitwit? Botswana? The Kingdom of Tonga?" Finished, Joshua excused himself and went down the hall to his office. He was gone perhaps five minutes, and when he returned, he sent Barty off to the waiting room, where the receptionist kept a jar of lemon- and orange-flavored hard candies. "A few of them have your name on 'em, Bartholomew." Dr. Daines spoke with Celestina in the corridor, outside the door to 724. Some of the passing nurses were nuns in wimples and full-length habits, drifting like spirits along the hallway. A mutual interest in ballroom dancing had resulted in their introduction when each needed a new partner for a fox-trot and swing competition. Nolly had started taking lessons five years before he had met Kathleen. To the window in the driver's door, Barty came with a repertoire of comic expressions, mugging at his mother, sticking one finger up his nose and exaggeratedly boring with it as though exploring for nasal nuggets. "Not scary, Mommy!" The middle finger on his right hand throbbed under the pair of Band-Aids. He'd sliced it earlier, while using the electric sharpener to prepare his knives, and the wound had been aggravated when he'd had to strangle Neddy Gnathic. He would never have cut himself in the first place if there had been no need to be well-armed and ready for Bartholomew and his guardians. Above the wainscoting, the walls were Sheetrock, unlike the plaster elsewhere in the apartment. On one of them, Enoch Cain had scrawled Bartholomew three times. "Periodic violent emesis without an apparent cause can be one indication of locomotor ataxia, but you've no other symptoms of it. I wouldn't worry about that unless this happens again." Never had the familiar red Bicycle design of the U.S. Playing Card Company looked ominous before, but it was fearsome now, as strange voodoo veve or satanic conjuration pattern. Although he considered tearing up the letter and throwing it away he knew that his perceptions were clouded by grief and that what he'd written might seem fine if he reviewed it in a less dark state of mind. He returned the letter to the envelope and put it in the drawer of his nightstand. Jell-O were served to Agnes Lampion as, on farms farther inland from the coast, roosters still crowed and plump hens clucked contentedly atop their early layings. He did not answer Hound's question. "WOULD YOU LIKE TO BE MY BOYFRIEND?" asked Miss Velveeta, who had thus far shown no romantic inclinations. Junior knew that she must be teasing him. Her sense of play was delicious. Such devilry in her scintillant blue eyes, such sauciness. "But before you leave St. Mary's," the physician said, "I'd like a few mutes of your time. It's very important to me. Personally." No more than a minute after Vanadium departed, a nurse arrived in a rush, no doubt sent by the hateful cop. Hard to tell, through all the tears, if she was a looker. A nice face, perhaps. But such a stick-thin body. Dressed entirely in a shade of pink that darkened to rouge when wet, Angel squealed and deserted Barty. Spotted-streaked-splashed, with false tears on her cheeks, with a darkly glimmering crown of rain jewels in her hair, she raced up the steps as though she were a princess abandoned by her coachman, and allowed herself to be scooped into her grandmother's arms. At the front, a soft spotlight focused on the life-size crucifix. The only additional illumination came from the small bulbs over the stations of the cross, along both side walls, and from the flickering flames in the ruby glass containers on the votive-candle rack. "yunh," so she nodded as vigorously as she was able to do, and tightened her grip on Celestina's hand. She dealt with them equally, too, favoring neither—except in the matter of pie delivery. On those rare occasions when she could not make these rounds herself and when she had no one to turn to but a brother, Agnes always asked for Edom's help. Her shaking threatened her composure. She was Barty's mother and father, his only rock, and she must always be strong for him. She clenched her teeth and tensed her body and gradually quieted the tremors by an act of will. For the next few days, they would eat all their meals in the suite. Most likely, Cain had left San Francisco. And even if the killer hadn't fled, this was a big city, where a chance encounter with him was unlikely. Yet having, assumed the role of guardian, Tom Vanadium had a zero tolerance for risk, because the inimitable Mr. Cain had proved himself to be a master of the unlikely. Maybe the watch wouldn't be discovered with the corpse. Maybe it would settle into the trash and not be found until archaeologists dug out the landfill two thousand years from now. Although a believer, Agnes was not at the moment able to spread the flowers and ferns of faith over the hard, ugly reality of death. Cowled and skeletal, Death was here, all right, scattering his seeds among all her gathered friends, one day to reap them. Startled, Junior sat up straight, clutching the silencer-fitted pistol, but the cruiser didn't abruptly brake and pull to the curb in front of the Mercedes, as he expected. In the sermon that brought him a moment of fame that he'd found more uncomfortable than not, Daddy had used the life of Bartholomew to illustrate his point that every day in every life is of the most profound importance. Bartholomew is arguably the most obscure of the twelve disciples. Some would say Lebbaeus is less known, some might even point to Thomas the doubter. But Bartholomew certainly casts a shadow far shorter than those of Peter, Matthew, James, John, and Philip. Daddy's purpose in proclaiming Bartholomew the most obscure of the twelve was then to imagine in vivid detail how that

apostle's actions, seemingly of little consequence at the time, had resonated down through history, through hundreds of millions of lives-and then to assert that the life of each chambermaid listening to this sermon, the life of each car mechanic, each teacher, each truck driver, each waitress, each doctor, each janitor, was as important as the resonant life of Bartholomew, although each dwelt beyond the lamp of fame and labored without the applause of multitudes..honor and family. This was life, and everyone lived his life in the shadow of one solemn obligation or another..He possessed vast files on tragic fires, and most of them were committed to memory. In Vienna's magnificent Ring Theater, December 8, a blaze claimed 850 lives. On May 25, 1887, 200 dead at the Opera Comique, Paris. November 28, 1942, in the Coconut Grove nightclub in Boston-when Jacob was only fourteen years old and already.Tom had acted with the best intentions-but also with the intelligence and the good judgment that God had given him and that he had spent a lifetime honing. Good intentions alone can be the cobblestones from which the road to Hell is built; however, good intentions formed through much self-doubt and second-guessing, as Tom's always were guided by wisdom acquired from experience, are all that can be asked of us. Unintended consequences that should have been foreseeable are, he knew, the stuff of damnation, but those that we can't foresee, he hoped, are part of some design for which we can't be held responsible..With the same surprising ease that she had gotten a plane out of San Francisco on a one-hour notice, Celestina booked two return seats on an early-evening flight from Oregon, as though she had a supernatural travel agent..Walking was part of a fitness regimen that he took seriously. He would never be called upon to save the world, like the pulp heroes in the tales he enjoyed; however, he had solemn responsibilities he was determined to meet, and to do so, he must maintain good health..The can struck Junior hard in the face, breaking his nose, before he could duck..On a street a half mile from the airport in Eugene, he sat in the parked Dodge long enough to gingerly unwind the bandages and use a tissue to wipe off the pungent but useless salve he'd purchased at a pharmacy. Although he pressed the Kleenex to his face so gently that the pressure might not have broken the surface tension on a pool of water, the agony of the touch was so great that he nearly passed out. The rearview mirror revealed clusters of hideous, large, red knobs with glistening yellow heads, and at the sight of himself, he actually did pass out for a minute or two, just long enough to dream that he was a grotesque but misunderstood creature being pursued through a stormy night by crowds of angry villagers with torches and pitchforks, but then the throbbing agony revived him..Maria's mother, visiting from Mexico, was babysitting, so Maria came without her children, as a guest, joining Agnes and the laugh-a-minute Isaacson twins, chroniclers of destruction. They ate in the dining room, rather than at the kitchen dinette, with a lace-trimmed tablecloth, the good china, crystal wineglasses, and fresh flowers..He was uncomfortable, achy, thirsty, but he remained utterly still and observant. After a while, he realized that the sense of oppression with which he'd awakened was not entirely a psychological symptom: Something heavy lay across his abdomen. And it was cold-so cold, in fact, that it had numbed his middle to the extent that he hadn't immediately felt the chill of it. Shivers coursed through him. He clenched his jaws to prevent his teeth from chattering and thereby alerting the man in the chair. Although he never took his eyes off the comer, Junior became preoccupied with trying to puzzle out what was draped across his midsection. The mysterious observer made him sufficiently nervous that he couldn't order his thoughts as well as usual, and the effort to prevent the shivers from shaking a sound out of him only further interfered with his ability to reason. The longer that he was unable to identify the frigid object, the more alarmed he became. He almost cried out when into his mind oozed an image of Naomi's dead body, now past the whitest shade of pale, as gray as the faint light at the window and turning pale green in a few places, and cold, all the heat of life gone from her flesh, which was not yet simmering with any of the heat of decomposition that would soon enliven it again..Celestina's question had been about Phimie, but they had told her about the baby, and she was alarmed by their evasion..Nothing he could do about it now. Having Naomi's body moved to another grave, in a cemetery without Negroes, would cause a lot of talk. He didn't want to draw more attention to himself.. "And how about this," he continued. "Every point in the universe is directly connected to every other point, regardless of distance, so any point on Mars is, in some mysterious way, as close to me as is any of you. Which means it's possible for information-and objects, even people-to move instantly between here and London without wires or microwave transmission. In fact, between here and a distant star, instantly. We just haven't figured out how to make it happen. Indeed, on a deep structural level, every point in the universe is the same point. This interconnectedness is so complete that a great flock of birds taking flight in Tokyo, disturbing the air with their wings, contributes to weather changes in Chicago..".He wondered if the hawk had descended in a constricting gyre, justice coming down, but he could not lift his head to see..When Paul practiced the quarter trick, he usually did so on the sofa or in an armchair, and always in a room with carpeting, because when dropped on a hard surface, the coin rolled and required too much chasing..Barty sat at the kitchen table, reading *Between Planets*. From time to time, Agnes discovered him watching her at work or studying Maria's face and her dexterous hands..Perplexed by their peculiar behavior, even slightly unnerved, Tom answered Maria's question. "I'm afraid there's nothing else I can do, nothing more of a fantastic nature..".Requests for permission to make copies of any part of the work should be mailed to the following address:..Almost as an afterthought, as he was leaving, he tucked the brochure for "This Momentous Day" into a jacket pocket. There would be amusement value in hearing a group of cutting-edge young artists analyze Celestina's greeting-card images. Besides, as the Academy of Art College was the premier school of its type on the West Coast, a few of the partygoers might actually know her and be able to give him some valuable background. The party raged in a cavernous loft on the third-and top-floor of a converted industrial building, the communal residence and studio of a group of artists who believed that art, sex, and politics were the three hammers of violent revolution, or something like that..Crouching beside the boy as he rubbed a brighter shine onto the granite, Agnes said, "Barty, honey, why are youAs kids-living in a house that was run like a prison, stifled by the oppressive rule of a morose

father who believed that any form of entertainment was an offense against God-they conducted secret card games as their primary act of rebellion. A deck of cards was small enough to hide quickly and to keep hidden successfully even during one of their father's painstakingly thorough room searches..Because of his blindness and his intellectual gifts, Barty was home schooled; besides, no teacher was a match for his autodidactic skills, nor could anyone possibly inspire in him a greater thirst for knowledge than the one with which he had been born. Angel went to this same informal classroom, and her sole fellow student was also her teacher. They aced the periodic equivalency tests that the law required. Their constant companionship seemed to be all play, yet was filled with constant learning, too..Now, after removing the four decks of cards from the pressboard packs in which they had come, Jacob lined them up side by side on the scarred maple top of the table..He stood watching until the car cruised out of sight, and even after it dwindled to a speck and vanished in the distance, he stared at the point in the street where it had last been, stared while a breeze turned playful, tossing eucalyptus leaves around his feet, stared until at last he turned and began the long walk home..Nevertheless, with Gein in mind, how easy it was to imagine that a monstrous evil lurked nearby. Watching. Scheming. Driven by an unspeakable hunger. In a century torn by two world wars, marked by the boot heels of men like Hider and Stalin, the monsters were no longer supernatural, but human, and their humanity made them scarier than vampires and hell born fiends..In reaction to a terrible sense of weightlessness, Agnes's two-fisted grip on the steering wheel grew so tight her hands ached. She held on with all her strength, as if at real risk of floating out of the car and up toward the source of the raveling skeins of rain..Sheena Hackachak, at forty-four, was more beautiful than any current movie star. She looked twenty years younger than her true age, and she so resembled her late daughter that Junior felt a rush of erotic nostalgia at the sight of her.. "And in some of them, maybe I died the night you were born, and you live alone with your dad."..Leashed like a dog, he walked along, sullen and shivering with sickness and rage. He stared around him, seeing the stone tower, stacks of wood by its wide doorway, rusty wheels and machines by a pit, great heaps of gravel and clay. Turning his sore head made him dizzy..Academy of Art College and might have met Celestina White. The critiques of her paintings."She. Was eating. Dried apricots." Junior spoke almost in a whisper yet the ridge was so quiet that he had no doubt each of these uniformed but unofficial jurors heard him clearly. "Walking. Around the deck. Paused. The view. She. She. She leaned. Gone."..Of course, you've never seen anything like it, you worthless adolescent twit. You're not old enough to have seen squat, and even if you were older than your own grandfather, you wouldn't have seen anything like this, Dr Kildare, because this here is a true case of voodoo Baptist boils, and they don't come along often!..Third, Celestina had a daughter. Not a boy named Bartholomew. Seraphim's baby had been a girl. Named Angel. This confused Junior as much as it stunned him..Flanked by Dumpsters and trash cans, through steam rising out of grates in the pavement, past parked delivery trucks, here came the dead cop. Running..At Tom Vanadium's request, the taxi dropped him one block from his new-and temporary-home shortly before ten o'clock in the evening..Barty whispered: "The North Pole Society of Not Evil Adventurers is now in session."..The following morning, he canceled his German lessons. It was an impossible language. The words were enormously long..Eventually, when he had gone through the entire directory, if he'd had no success, he would phone each red-checked listing and ask for Bartholomew. A few hundred calls, no doubt. Some would involve long-distance charges, but he could afford the toll..THE SUN ROSE above clouds, above fog, and with the gray day came a silver drizzle. The city was lanced by needles of rain, and filth drained from it, swelling the gutters with a poisonous flood..The two men introduced themselves. The physician was Dr. Jim Parkhurst. His manner was easy and affable, and his soothing voice, either by nature or by calculation, was as healing as balm..Now the hole was revealed. Damp earthen walls. In the shadow of the casket, the bottom of the grave was dark and hidden from view..Likewise, she wasn't prepared to deal with a monster like the father, if one day he came for Angel. And he would come. She knew. In these events as in all things, Celestina White glimpsed a pattern, complex and mysterious, and to the eye of an artist, the symmetry of the design required that one day the father would come. She wasn't prepared to deal with the creep now, but by the time that he arrived, she would be ready for him..Several large Dumpsters hulked nearby, dark rectangles less seen than suggested in the slowly churning murk, like forms in a dream, as ominous as graveyard sarcophaguses, each as suitable for a musician's carcass as any of the others..Admittedly, she had allowed herself to be disturbed by the fall of the cards, too. According them any credibility at all opened the door to full belief..Had he ever thought he could get away with this? He must have been delusional, temporarily mad..In the time of the kings, mages gathered in the court of Enlad and later in the court of Havnor to counsel the king and take counsel together, using their arts to pursue goals they agreed were good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers one against the other in duels and combats of sorcery, careless of the evils they did, or worse than careless. Plagues and famines, the failure of springs of water, summers with no rain and years with no summer, the birth of sickly and monstrous young to sheep and cattle, the birth of sickly and monstrous children to the people of the isles-all these things were charged to the practices of wizards and witches, and all too often rightly so..He didn't pause to lock the house behind them. Bright Beach, in 1965, was as free of criminals as it was untroubled by lumbering brontosaurus..Bartholomew might be a teenager living with his parents or a dependent adult residing with family; if so, he wouldn't be revealed in this search, because the phone would not be listed in his name. Or maybe the guy loathed his first name and never used it except in legal matters, going by his middle name, instead..He nervously fingered the fabric of his slacks, outlining the quarter in his pocket. Still there..But she knew. Barty, buoyant as ever, seemed not to be much worried about the problem with his vision. He appeared to expect that it would pass like any sneezing fit or cold..Junior worried that he might not locate the correct Dumpster among the many. Yet he didn't switch on the flashlight, suspecting that he would be better able to find his way if the conditions of darkness and fog were exactly as they had been earlier. In fact, this

proved to be the case, and he instantly recognized the hulking Dumpster when he came upon it..Angel followed him and observed as he climbed a stepstool and unhooked the telephone handset. He dialed with little pause between digits, and spoke with each of his uncles..Instead, her father asked, "Is this emotion talking, Celie, or is this brain as much as heart?".Jacob had spent most of two days baking Barty's favorite pies, cakes, and cookies, and he'd prepared a meal as well. Maria's girls were at her sister's place this evening, so she stayed for dinner. Edom poured wine for everyone but Barty, root beer for the guest of honor, and while this couldn't be called a celebration, Agnes's spirits were lifted by a sense of normality, of hope, of family..The second and third rooms proved to be deserted, as well, and as muffled as the cushioned spaces of a funeral home, but an office was tucked discreetly at the back of the final chamber. As Junior crossed the third room, apparently monitored by closed-circuit security cameras, a man glided out of the office to greet him..Tom was an Oregon State Police detective, as far as Celestina knew, and she didn't understand what he was doing here.. "Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling."..He would never allow himself to be bankrupted and made poor again. Never. His fortune had been won at enormous risk, with great fortitude and determination. He must defend it at any cost.
