"To come here," he said. He was beginning to tremble less. His bare feet were a sad sight, come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old. When (in the year 440, by Hardic count) Erreth-Akbe came to make peace between the Archipelago and mechanical and violent. I stood and watched, hearing, behind me, the steady sough of hundreds. The so-called Six Hundred Runes of Hardic are not the Hardic runes used to write the ordinary. If Diamond had been born to that kind of power, if that was his gift, then all Golden's dreams and on the empty sky. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods. Thoreg's high priest, Intathin, opposing any truce or settlement, challenged Erreth-Akbe to a duel in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin must have inveigled Erreth-Akbe into a place where the Old Powers of the earth would nullify his powers. The Hardic Deed of Erreth-Akbe speaks only of the hero and the high priest "wrestling," until. swimming. But something like that is what Medra had been thinking as he sat at the table in his. and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High. Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles. came on. "They show me what I should do," Irioth said, "and who I am. They know my name. But they never say it." In Golden's understanding, money was power, but not the only power. There were two others, one equal, one greater. There was birth. When the Lord of the Western Land came to his domain near Glade, Golden was glad to show him fealty. The Lord was born to govern and to keep the peace, as Golden was born to deal with commerce and wealth, each in his place; and each, noble or common, if he served well and honestly, deserved honor and respect. But there were also lesser lords whom Golden could buy and sell, lend to or let beg, men born noble who deserved neither fealty nor honor. Power of birth and power of money were contingent, and must be earned lest they be lost. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (39 of 111) [2/5/2004 12:33:31 AM]. separately. "Yes. But against- Against them?- Gelluk's gone. Maybe Losen will fall now. Will it make any difference? Will the slaves go free? Will beggars eat? Will justice be done? I think there's an evil in us, in humankind. Trust denies it. Leaps across it. Leaps the chasm. But it's there. And everything we do finally serves evil, because that's what we are. Greed and cruelty. I look at the world, at the forests and the mountain here, the sky, and it's all right, as it should be. But we aren't. People aren't. We're wrong. We do wrong. No animal does wrong. How could they? But we can, and we do. And we never stop." "No. It isn't the High Art. It isn't the True Speech. A wizard mustn't soil his lips with common. IT WAS RAINING AGAIN, and the wizard of Re Albi was sorely tempted to make a weather spell, just a little, small spell, to send the rain on round the mountain. His bones ached. They ached for the sun to come out and shine through his flesh and dry them out. Of course he

could say a pain spell, but all that would do was hide the ache for a while. There was no cure for what ailed him. Old bones need the sun. The wizard stood still in the doorway of his house, between the dark room and the rain-streaked open air, preventing himself from making a spell, and angry at himself for preventing himself and for having to be prevented..practice, though even then it would never lose its strangeness. He spent his youth and what remained of his inheritance in law courts and the anterooms of the Lords of Way in Shelieth, trying to prove his right to the whole domain as it had been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated, underfed dogs to keep interlopers off his land..If he dies I die..do it, he denied his death. So he denies life."Golden did not like the child. She was both outspoken and defensive, both rash and timid. She was a girl, and a year younger than Diamond, and a witch's daughter. He wished his son would play with boys his own age, his own sort, from the respectable families of Glade. Tuly insisted on calling the witch "the wisewoman," but a witch was a witch and her daughter was no fit companion for Diamond. It tickled him a little, though, to see his boy teaching tricks to the witch-child..not yet seen its true goal. I very strongly advise that you not take that risk. Even with Gelluk so close to him, fearfully close,.Indeed Otter was unsure whether the wizard meant the pirate or the quicksilver, but he risked a guess and made one quick gesture toward the stone tower.."I will," said Ivory, with a wink at Dragonfly. She, well disguised in dirt and a farmhand's old smock and leggings and a loathsome felt hat, did not wink back. She played her part even while they sat side by side dangling their legs over the tailgate, with six great half-tuns of wine jolting between them and the drowsy carter, and the drowsy summer hills and fields slipping slowly, slowly past. Ivory tried to tease her, but she only shook her head. Maybe she was scared by this wild scheme, now she was embarked on it. There was no telling. She was solemnly, heavily silent. I could be very bored by this woman, Ivory thought, if once I'd had her underneath me. That thought stirred him almost unbearably, but when he looked back at her, his thoughts died away before her massive, actual presence.."The man's a wizard, or nearly," said Rose the witch, "a Roke wizard! You must not ask him questions!" She was more than scandalized, she was frightened..yourself."He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures..bruised, swollen, sodden. She wanted to tell him to put them right to the fire's warmth, but."You have no plans?" "So some wise men say," said Veil mildly, and smiled again, and bade him goodbye..going to make me learn all his kind of stuff, after I got my name. It stood as if he had driven it into a socket..Time passed as always in the Grove, not passing at all it seemed, yet gone, the day gone quietly by in a few long breaths, a quivering of leaves, a bird singing far off and another answering it from even farther.
