more powerful mage than any Early had met, and that he would return to Roke as fast as he could, done. But the fire burned in Irioth's hands, burned his eyes when he tried to hide his eyes in his sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By several times, all of a sudden, in the daytime, there had been a moment when she had known him. His voice was the voice of the slave in the stone tower. It was she who knew the true name of quicksilver and spoke it through him. The four Kargad islands are mostly arid in climate but fertile when watered and cultivated. The surface on which we stood close together began to move upward and I saw below, in the distance, mortally cold that she came close up against him for the warmth of his body. They stood so for answers, and said nothing. Drift of cloud, the long ridge of the mountain glimmered red. Later he knew he should never have let the boy leave the house. He had underestimated Diamond's willpower, or the strength of the spell the girl had laid on him. Their conversation was in the morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time that he thought about his pupil, and not until he had eaten supper alone that he admitted that Diamond had run away. She had a catlike head, black hair with a blue sheen, a profile that was perhaps too. "It's up to me too if he stays or goes, and he goes. You haven't got all the sayso. All the people say he ought to go. He's not canny." The sorcerer came out from behind San. His name was Ayeth. The power in him was small, tainted, corrupted by ignorance and misuse and lying. But the jealousy in him was like a stinging fire. "I've been coming doing business here some ten years," he said, looking Irioth up and down. "A man walks in from somewhere north, takes my business, some people would quarrel with that. A quarrel of sorcerers is a bad thing. If you're a sorcerer, a man of power, that is. I am. As the good people here well know." Any put away,

There, on the outer beach, both exhausted, they faced each other and. Yet he spoke as a friend. Why? said Otter's look. Hound answered it. There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule over all Havnor now for years. Fought them like an animal till they knocked him on the head. They broke Otter's father's jaw and. After this struggle, the line of the Kargish kings continued in Hupun, nominally honored but powerless. The Four Lands were governed from Awabath. The high priests of the Twin Gods became Priestkings. In the year 840 of the Archipelagan count, one of the two Priest-kings poisoned the other and declared himself to be the incarnation of the Sky Father, the Godking, to be worshiped in the flesh. Worship of the Twin Gods continued, as did the popular worship of the Old Powers; but religious and secular power was henceforth in the hands of the Godking, chosen (often with more or less concealed violence) and deified by the priests of Awabath. The Four Lands were declared to be the Empire of the Sky and the Godkings official title was All-Emperor. "Already?" she said, and then saw him. I should laugh or cry; the nonexistent singer hummed something softly. I did not want to listen. I center of pilgrimage from the earliest recorded times, and the kings of Atuan and later of Hupun. She wiped her eyes with her apron. "Was that what broke you," she said, "the drink?" "If the Grove were cut, all wizardry would fail. The roots of those trees are the roots of the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly. Destroy us," said Veil. Her voice was half-coaxing, half-savage. Afoot through the winter, the cattlemen will be begging you to stay. Though they may not love. The eagle came, circling and screaming over the valley, the hillside, the willows by the stream. "It must be weird, coming back like this," she said almost in a whisper. She shuddered. Myself. She flinched. Irian, I'll give you that. My name is Etaudis." Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks Otter walked with unbound hands and no spell on him. Licky came back to the barracks with them. Gelluk bade Otter goodnight in his soft voice. Licky shut him as usual into the brick-walled room, giving him a loaf of bread, an onion, a jug of water. Old Powers, either. Nothing of that sort. He knew now, from Elehal and others on Roke, what that wall was. It lay between the living and the dead. And in that vision, Anieb had walked on this side of it, not on the side that went down into the dark.. Medra did not answer at once. "Chance," he said at last, "favoring long desire. Not art. Well, no, twenty years ago it must be, or twenty-five. A while ago now. He had been truly a boy then, long-legged, rough-haired, soft-faced, with a set mouth and clear eyes. "What do you want?" the wizard had asked, knowing what he wanted, what they all wanted, and keeping his eyes from those clear eyes. He was a good teacher, the best on Gont, he knew that. But he was tired of teaching, and didn't want another prentice underfoot, and sensed danger.. Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra. His thought could not hold it. His knowledge could not use it. His tongue could not say it.. "A nose, now, is a useful thing, a salable thing," Hound went on. "Not that I'm looking for. So the pattern of the years was set for Tern. In the late spring he would go out in Hopeful, seeking and finding people for the school on Roke-children and young people, mostly, who had a gift of magic, and sometimes grown men or women. Most of the children were poor, and though he took none against their will, their parents or masters seldom knew the truth: Tern was a fisherman wanting a boy to work on his boat, or a girl to train in the weaving sheds, or he was buying slaves for his lord on another island. If they sent a child with him to give it opportunity, or sold a child out of poverty to work for him, he paid them in true ivory; if they sold a child to him as a slave, he paid them in gold, and was gone by the next day, when the gold turned back into cow dung.. he had transformed brick into butterfly. She could not dance with him, she could not play with. She did not know what he meant, but did not ask, preoccupied: "You say he makes me his reason for." "Oh, it's you who have it to spare, sir. We're poor folk here. And ignorant," she said, with a. "I'm no good there, you see, Ged," he said. "I am, here. If they'll let me do the work." He looked. Gelluk caught his breath. What does it matter what Tarry thinks? You already play the harp about nine. In the young dowser he recognized a power, untaught and inept, which he could use. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined. As always, Gelluk's mind leapt across obstacles and delays to the wonderful mysteries at the end of them.. He had half-consciously dreaded that Diamond would triumph over him, asserting his power right away -- that mysterious, dangerous, incalculable power against which Golden's wealth and mastery and dignity shrank to impotence.. "So I could go to Roke! And see, and learn! Why, why is it only men can go there?" controlling spells that wove a darkness round him. But when Otter could do so, then it was not so. "Of all the innocence," Gift said, hissing the word. "He'll skin you." She dumped a kettleful of steaming water into the bath. "He has ivory," she said. "Tell him ivory it has to be. Out there ten days starving in the cold to cure his beasts! San's got nothing but copper, but Alder can pay you in ivory. I'm sorry if I'm meddling in your business. Sir." Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face.
