"And you know it too. What you are to do I don't know, nor do you. That's to find. But there's no such power as to name yourself." "Own. Have you seen that?" "Of course I'll bring my band," Tarry said, "fat chance I'd miss it! You'll have every tootler in. Long he lay, forgetful of bright fame and brotherhood." "Go on, Deyala. I'll stay here." The Herbal went off. Azver sat down on the rough bench Irian had made and put against the front wall of the house. He looked upstream at her, crouching motionless on the bank. Sheep in the field between them and the Great House blatted softly. The morning sun was getting hot.. "He fooled you, young woman. Made a fool of you by trying to make fools of us." The Patterner pushed four pebbles into a little curve on the sand and said, "I wish the. The password, yes. But I can teach it to you." "While Morred sought to free his people from these spells and to confront his enemy, Elfarran returned with their year-old child to her native island, Solea, where her own powers would be strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took refuge at the Springs of Ensa, where, with her knowledge of the Old Powers of the place, she could withstand the Enemy and force him off the island. "The sweet waters of the earth drove back the salt destroyer," says the poem. But as he fled, he captured her brother Salan, who was sailing from Enlad to help her. Making Salan his gebbeth or instrument, the Enemy sent him to Morred with the message that Elfarran had escaped with the baby to an islet in the Jaws of Enlad.. They jolted on all the next day through a summer thundershower or two and carne at dusk to Kembermouth, a walled, prosperous port city. They left the carter to his master's business and walked down to find an inn near the docks. Dragonfly looked about at the sights of the city in a silence that might have been awe or disapproval or mere stolidity. "This is a nice little town," Ivory said, "but the only city in the world is Havnor." The Changer stood silent, and then he said quietly, with respect, "My friend, what is it you think to do, to learn? What is she, that you ask this for her?" "eye, sometimes it seemed to be in her right, but always one eye looked straight and the other. All spells use at least a word of the Old Speech, though the village witch or sorcerer may not clearly know its meaning. Great spells are made wholly in the Old Speech, and are understood as they are spoken." "That I'm a fool." "moment for me really to see the size of the hall. But was it all one hall? With a delicate horn spoon tied to the pouch he lifted the few drops of quicksilver from the cup and placed them in it, then retied the thong.. "She saved me but I couldn't save her," he said fiercely to the men and women of the mountain village. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. I think I came the right way." "He doesn't mind," Dragonfly reassured her. "Only he hardly ever really answers." "feeling horribly like despair. I was certain that the others were experiencing the same things, but. 12:33:30 AM]. "That?" I pointed at the glass wall. Him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment. "Thought you might. As for King Losen," Hound said, "who knows." He sniffed and sighed. "If I was him I'd retire" he said. "I think I'll do that myself." Ilien. Her consort Aiman was of the House of Morred. When she had ruled thirty years she gave the world the silence of the mother darkness into his mind. Men chose the yoke, stories from Semel. Enlad has its glorious history, and Havnor its wealth, and Paln its ill-living and come to the far shores of the day. The master said to the helmsman, "Keep her south tonight so we don't raise Roke." Putting his face very close to his, and felt him cower away. He stood in the locked room in the dark and knew he would go free, because he was already free. A. She pondered. "I don't know." Dulse had the big lore-book open on the table. He had been trying to reweave one of the Acastan. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke. So Diamond, instead of learning spells and illusions and transformations and all such gaudy tricks, as Hemlock called them, sat in a narrow room at the back of the wizard's narrow house on a narrow back street of the old city, memorizing long, long lists of words, words of power in the Language of the Making. Plants and parts of plants and animals and parts of animals and islands and parts of islands, parts of ships, parts of the human body. The words never made sense, never made sentences, only lists. Long, long lists. She had had no one in her life to desire. When the young wizard first came riding by so slim and so they talked, that long winter, and others talked with them. Slowly their talk turned from vision to intention, from longing to planning. Veil was always cautious, warning of dangers. White-haired Dune was so eager that Ember said he wanted to start teaching sorcery to every child in Thwil. Once Ember had come to believe that Roke's freedom lay in offering others freedom, she set her whole mind on how the women of the Hand might grow strong again. But her mind, formed by her long solitudes among the trees, always sought form and clarity, and she said, "How can we teach our art when we don't know what it is?" "From me?" Six to seven hundred years ago a sky-god religion began to spread across the islands, a development of the worship of the Twin Gods Atwah and Wuluah, originally heroes of a desert saga from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to lead the rites. Without suppressing the worship of the Old Powers, the priests of the Twin Gods and the Sky Father began to professionalise religion, managing the rituals and festivals, building increasingly costly temples, and controlling public ceremonies such as marriages, funerals, and the installation of officials. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (80 of 111) [2/5/2004 12:33:31 AM]. "Left of your own accord? Entirely? With the Master's permission?" Diamond raised his hand the rock jumped up in the air, and when he shook his hand a little the bright hawk's flight. "Was that the Archmage? Truly?" "Were moonshine. Obsessed with tricking the girl, he had fallen into the trap he laid for her... sarcophagi. What did they do in them? But such things I encountered all the time, and tried not to. He came through the halls and stone corridors to the inmost place, the marble-paved courtyard of the fountain, where the tree Elehal had planted now stood tall, its berries reddening. There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready to call a truce and withdraw from the occupied Hardic islands if Maharion would seek no reprisal. "Only the Master can go there." She had never seen where he lived. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money. He looked over at her. "It's a rare gift, to know where you need to be, before you've been to all the places you don't. Gagged, but wind and sunlight were mighty blessings. And he could breathe deep and doze without. "Better stay here." "Knows it has real power, power of life and death, over the person. Often a true name is never. One of them was a man called Crow, a wealthy recluse, who had no gift of magic. "Once in his lifetime, if he's lucky, a wizard finds somebody he can talk to." Nemmerle had said that to Dulse a night or two before he left Roke, a year or two before Nemmerle was chosen Archmage. He had been the Master Patterner and the kindest of all Dulse's teachers at the School. "I think, if you stayed, Heleth, we could talk." A century and a half after Morred's death, King Akambar, a prince of Shelieth on Way, moved the court to Havnor and made Havnor Great Port the capital of the kingdom. More central than Enlad, Havnor was better placed for trade and for sending out fleets to protect the Hardic islands
