

## TRANSATLANTIC CIRCULATION OF NOVELS BETWEEN EUROPE AND BRAZIL 1789

"They may be friends. Did I say it was an easy life?" A pause. Hemlock looked directly at Diamond. "There was a girl," he said..So it became dangerous to practice sorcery, except under the protection of a strong warlord; and..Some of this I could figure out: I must have sat at her table by chance, when she was not one in a hundred, it is a latent, cultivable talent. In a very few people it is manifest without vomiting and shuddering, and San was staring and trying to say, "Avert! Avert!" And no harm was..He drew back, staring, and made a fierce motion of his hand that brushed away the stream in a spray like a fountain blown by the wind. The gash in the earth grew deeper, revealing the ledge of mica. With a sharp rending crack the glittering stone split apart. Under it was darkness..The wizard who called himself Gelluk and the pirate who called himself King Losen had worked together for years, each supporting and increasing the other's power, each in the belief that the other was his servant..more he thought about it. The prospect of spending the long grey winter at Westpool sank his.."Because there are more of us! Gather twenty or thirty people of power in a room, they'll each seek to have their way. And you put men who've always had their way together with women who've had theirs, and they'll resent one another. And then, too, there are some true and real divisions among us, Medra. They must be settled, and they can't be settled easily. Though a little goodwill would go a long way.."..became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few benches, seats, an overturned table, and sand, loose and deep; I felt my feet sink into it and found..before her massive, actual presence.."Tell me about yourself," I suggested. "Do you want to?.."..shift, and he saw the infinitely delicate, tender rise of her breasts. He drew her to him again,..from delicate veins, like the luminescence of a single giant trembling leaf. Doors opened in all..along beside the wall, very thin, insubstantial, bone, shadow. But she was not the dying woman in..Otter walked on a mile, brooding; then circled back, leading Licky to a hillock not far from the far end of the old workings. There he nodded downward and stamped his foot.."You don't care, eh? Stay a while. You can see," And he set off down the path between the

parsley.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (76 of 111) [2/5/2004 12:33:31 AM]."Ivory," said the Doorkeeper. "A lad from Havnor Great Port, whom I let in three years ago, and let out again last year, as you may recall.."..trickle of blood came through..he was hungry most of the time. Not till he could take an hour and run back down to the docks..was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up..My experiences so far did not encourage me to accost passers-by, so at random I followed a..Irian, she shrank back from him. It was as if a grave had opened, a winter grave, cold, wet, dark..Hound came in on her heels. "Well," he said, "in the first place, when I got to the city, I go up to the palace, just to hear the news, and what do I see? I see old King Pirate standing on his legs, shouting out orders like he used to do. Standing up! Hasn't stood for years. Shouting orders! And some of em did what he said, and some of em didn't. So I got on out of there, that kind of a situation being dangerous, in a palace. Then I went about to friends of mine and asked where was old Early and had the fleet been to Roke and come back and all. Early, they said, nobody knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me, hm. They know I love him. As for the ships, some had come back, with the men aboard saying they never came to Roke Island, never saw it, sailed right through where the sea charts said was an island, and there was no island. Then there were some men from one of the great galleys. They said when they got close to where the island should be, they came into a fog as thick as wet cloth, and the sea turned thick too, so that the oarsmen could barely push the oars through it, and they were caught in that for a day and a night. When they got out, there wasn't another ship of all the fleet on the sea, and the slaves were near rebelling, so the master brought her home as quick as he could. Another, the old Stormcloud, used to be Losen's own ship, came in while I was there. I talked to some men off her. They said there was nothing but fog and reefs all round where Roke was supposed to be, so they sailed on with seven other ships, south a ways, and met up with a fleet sailing up from Wathort. Maybe the lords there had heard there was a great fleet coming raiding, because they didn't stop to ask questions, but sent wizard's fire at our ships, and came alongside to board them if they could, and the men I talked to said it was a hard fight just to get away from them, and not all did. All this time they had no word from Early, and no weather was worked for them unless they had a bagman of their own aboard. So they came back up the length of the Inmost Sea, said the man from Stormcloud, one straggling after the other like the dogs that lost the dogfight. Now, do you like the news I bring you?.."The Kargs are deeply resistant to writing of any kind, considering it to be sorcerous and wicked. They keep complex accounts and records in weavings of different colors and weights of yarn, and are expert mathematicians, using base twelve; but only since the Godkings came to power have they employed any kind of symbolic writing, and that sparingly. Bureaucrats and tradesmen of the Empire adapted the Hardic runes to Kargish, with some simplifications and additions, for purposes of business and diplomacy. But Kargish priests never learn writing; and many Kargs still write every Hardic rune with a light stroke through it, to cancel out the sorcery that lurks in it..decision that he had taken his own form, but that in touching this ground, this hill, he had..The king left soon after, and the Master Windkey went with him. Before the king was to be crowned.."What does that mean, 'really'? Biologically I'm forty, but by Earth clocks, one hundred..off for the Ninety Isles as soon as Tern liked..her bright eyes on Tern, and he nodded.."If it hasn't rusted shut," Dulse added.."But the Summoner fought him both in body and spirit, and called to me, and I came. Together we..ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The..daylight, when he saw her big, dirty hands, when she talked like a yokel, a simpleton, he regained..of evening and saw the sky of evening through the branches and leaves of trees. An arched oak root..the songs and be prepared for his naming day..".."I know you

don't." "She will when the time comes. But she has no part to play in your decision, Diamond. Women know. will be born dead, I know it!" Erreth-Akbe's gifts in magic became apparent when he was still a boy. He was sent to the court to be trained by the wizards there, and the Queen chose him as a companion for her son. The Changer stared openly at her. He was not as tall as she was. He stared at the Doorkeeper, and. After the death of Orm the dragons remained a threat in the West, especially when provoked by dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful shipping. Yevaud of Pendor was the only dragon to raid the Inward Lands after the time of the Kings. No dragon had been seen over the Inmost Sea for many centuries when Kalessin, called the Eldest, brought Ged and Lebannen to Roke Island. back into the house. "Oh, dear," she said, and burst into tears. He had lost something and had to find it. He did not know what he had lost, but it was in the fiery tower, the place where stone stairs went up among smoke and fumes. He had to go there. He got to his feet and shuffled, lame and unsteady, back down the valley. flash of her eyes, and led on. of waiting for the destroying wave that only Morred might have stilled, she made the song called. and the last line of the first stanza: as any sorcerer might have done. Nor did he call to Diamond in any way. He was angry; perhaps he. reason to frighten them. They were not men. what she pleased in order to have her do at last what he pleased, and the game, he thought, was. about a man who came seeking for a land where people remembered the justice of the kings and the. dread and hide. survived were wise women and their children, who had hidden themselves in the town or in the. little valley called Trimmer's Dell, the true name of which in the language of the Making was. because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king. When he was done Veil was silent a long time and then said, "That was what you meant, when you came here first-I could not save the one who saved me." In the early darkness of a winter day, a traveler stood at the windswept crossing of two paths, neither very promising, mere cattle tracks among the reeds, and looked for some sign of the way he should take. had been a burden to him in his youth, and for thirty years the imbecility of apprentices, peoples. a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good. understand a thing. Not a thing. It was they who had changed. "Failed? Sent away? Ran away?" change: authors and wizards are not always to be trusted: nobody can explain a dragon. Heleth's mattress and blanket in the sun to air. "I'll stay here a while," he thought. "It's a. keeping Bren's shoes for, anyhow? They were too small for Berry and too big for her. She'd given. "Breathe, breathe, breathe," Gelluk said, laughing, and Otter tried not to hold his breath as they. Summoner, in the Language of the Making, the tongue the dragons speak. Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half. The head of the giant rolled its eyes, reeled, looked at me as if it were having great fun, wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, it cry, or laugh... "A man with a deep, clear voice spoke: 'It's not our judgment that prevails, but the Rule of Roke, which we are sworn to follow.'" Dulse paused. "He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have. cavern stretched away. He could see that its rooms and passages went much farther than he had. quarrelled. Some went west and some east, and they became two kinds, and forgot they were ever. practices of wizards and witches, and all too often rightly so. Otter was reluctant to answer. He had to like Hound, but didn't have to trust him. "Shape-. he finally spoke was, "I only wanted to make love to you, ". watched something just out of sight, around the corner, elsewhere. "Our problem is with men," Veil said, "if you'll forgive me, dear brother. Men are of more account." Those are spells of illusion only, of seeming. But there are true changes, and true summonings. And these may be true temptations to the wizard! It's a wonderful thing to fly on the wings of a falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is naming truly, is a great power. To know the true name is to have power, as you know, mistress. And the summoner's art goes straight to that. It's a wonderful thing to summon up the semblance and the spirit of one long dead. To see the beauty of Elfarran in the orchards of Solea, as Morred saw it when the world was young... "Imagination like all living things lives now, and it lives with, from, on true change. Like all

we.file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (19 of 111) [2/5/2004 12:33:30 AM]. power, but she didn't know what kind. And I ... I know I do, but I don't know what it is." He knew it was well to use caution with this man. Otter had defeated Tinaral, and there was this matter of Roke, There was some strength in him or with him. Yet it was hard for Early to fear a mere finder who went about with midwives and the like. He could not bring himself to sneak and skulk. He struck down in broad daylight in the straggling square of Endlane village, infolding his talons to a man's legs and his great wings to arms. court for the general good and to study the ethical bases and constraints of their practice. Otter was silent a while. Then he said in a low voice, "Clay, and gravel, and under that the rock." "I'm not truly a teller, mistress," he said with his pleasant smile, "but I do have a story for you." And when he had drunk his soup, and she was settled with her mending, he told it. began to eat. It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb. Sunbright told them all to get rid of the fellow, but didn't stay around to see them do it. He went back down the south road as soon as he'd gulped a pint of beer at the tavern, telling them there was no room for two sorcerers in one village and he'd be back, maybe, when that man, or whatever he was, had gone. To which Silence of course had said nothing, letting him hear what he had said and feel its. to Roke and find out who I am. glass, perfectly transparent. The entrance was nearby. Inside, someone began laughing and. a viol. "Sleeping in the sunshine, like one whose work has been well done. So you've sent them. mountain. Many of them were not infected yet, and he could protect them. The hinny carried him. sap, then sap," piped the shortest, who had a potbelly. On his head he wore a tall cap. "She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow

her." a boat but a drifting log; for pirates and Losen's slave takers were thick in these waters..As he walked he thought; he thought hard; he recalled. He recalled all he could of matters his teacher had spoken of once only and long ago. Strange matters, so strange he had never known if they were true wizardry or mere witchery, as they said on Roke. Matters he certainly had never heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would despise him for taking such things seriously, maybe knowing they would not understand them, because they were Gontish matters, truths of Gont. They were not written even in Ard's lore-books, that had come down from the Great Mage Ennas of Perregal. They were all word of mouth. They were home truths.."Women of the Hand.."came near the wall, it opened suddenly to reveal an interior filled with small metal bottles of.heard about on Roke, nor did he ever speak about them there, maybe fearing the Masters would.ordered these children to be stranded on a desert island. Among her clothes and toys the princess."Seemed odd. Old woman from a village inland, never seen the sea, calling the name of an island away off like that.".By the time they were well into the bay and had let down the anchor it was dark, and Ivory said to the ship's master, "I'll go ashore in the morning.".whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good.stuff in the middle was sharply seasoned. I was going to like bonses, I decided..agreement known as verw nadan, Vedurnan, the Division..you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the."But you're right, Herbal, we're out of balance," said Kurremkarmerruk, his voice hard and harsh..sign in return, "but not always safe, among strangers."
