Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard escaped him. Cars, from high up, someone was watching me. I went closer to the edge of the light and saw the Azver the Patterner stood with his left hand holding his right hand, which her touch had burnt. He looked down at the men who stood silent at the foot of the hill, staring after the dragon. "Well, my friends," he said, "what now?" "Go on now," said Mead. "The girl flew away, lord," the man said unwillingly. "Will you trust me entirely, wholly - knowing that the risk I take for you is greater even than your risk in this venture?" "I'm going back to where I am," Kurremkarmerruk said abruptly. "I don't like leaving myself about. He had half-consciously dreaded that Diamond would triumph over him, asserting his power right. Find the center. That's the question to ask. That's what to do..." As he muttered on to himself, towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not. Otter crouched as always in the uneasy oppression of the spellbond. He drank thirstily. The sharp earthy taste of the onion was good, and he ate it all. The fashion of the time among the nobility was to have a wizard in their service, a genuine wizard. Chance to begin to wean the lad from his mother. She as a woman would cling, but he as a man must. Was leaping up and down, a frog? a toad? a big cricket? He went out into the garden and came up. Intermarrying with various noble houses of the Archipelago, the royal house embraced five. All this time he and Gelluk were going on farther from the tower, away from Anieb, whose presence sometimes weakened and faded. Otter dared not try to summon her. Among those silent, sunlit roads and fields and in the kitchens by the hearths where housewives. Future, his own life, his whole life, in his arms. "What will you have us call you?" "Stay." Mead looked at her sister. "Then it's time we talked a bit to you," she said, sitting down across the hearth from him. Ayo stood by the table, silent. A good fire burned in the hearth. It was a wet, cold time, and firewood was one thing they had plenty of, here on the mountain. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that. They went through long-disused levels, yet the wizard seemed to know every step, or perhaps he did not know the way and was wandering without heed. He talked, turning sometimes to Otter to guide him or warn him, then going on, talking on. through. He lay there under the root of the tree, seeing the light fade and a star or two come out. "What Master?" "Said he thought he'd better keep the doors," said the Herbal. He closed is many-pocketed pouch. To them, the Old Powers are abominable. Though like any power they could be perverted to evil use in the service of ambition (as was the Terrenon Stone in Osskil), the Old Powers were inherently sacral and pre-ethical. During and after the Dark Time, however, they were feminised and demonised in the Hardic lands by wizards, as they were in the Kargad Lands by the cults of the Priestkings and the Godkings. So by the eighth century, in the Inner Lands of the Archipelago, only village women kept up rituals and offerings at the old sites. They were despised or abused for doing so. Wizards kept clear of such places. On Roke, itself the center of the Old Powers in all Earthsea, the profoundest manifestations of those powers-Roke Knoll and the Immanent Grove-were never spoken of as such.
